## EDUCATIONAL CARE: TAKING CARE OF GOD'S CHILDREN

Do you remember your favorite teacher? He or she probably still influences you today in some ways. In Latin America, Asia, and Africa, educators want to improve their teaching skills but they cannot afford the time or training they need to do so.

Responding to these needs, a team of seasoned educators with international experience developed the Educational Care program. This adaptable program consists of six modules, each addressing a particular learning area. Through Educational Care:

- Teachers are enhancing the relation of their faith with their teaching and learning
- Christian Educators are putting their new skills into action through measurable learning goals
- Administrators and teachers are realizing the important role of their school in the greater community

## EDUCATIONAL CARE

Faith-based strategies for educators

# What is Educational Care?

EC is a learning program that encourages and assists educators and schools with limited resources by giving them an opportunity to develop **skills and strategies of education that honor God**, His creation, and the children in their classrooms. Educational Care is a ministry of Christian Reformed World Missions.

*"[My action plan] was very successful and had a great impact on every individual student both behavior-wise and in performance."*

- MARTHA, EDUCATIONAL CARE PARTICIPANT

## Educational Care Course Outline

Educational Care consists of six modules, each addressing a particular learning area. Modules consist of approximately six to ten separate lessons that build on one another. Each module can be covered in four days.

### **Module 1: The Biblical Worldview**

What is our vision for life and teaching?

### **Module 2: How Students Learn**

How can we incorporate learning styles and intelligences into our teaching?

### **Module 3: Developing Student Gifts**

How can educators promote Christian community and each student's gifts in the classroom?

### **Module 4: Preventive and Corrective Discipline**

How can educators practice Bible-based discipline within the context of community?

### **Module 5: Leadership in a School**

How does everyone contribute to the leadership of a school?

### **Module 6: The Purpose and Value of Your School**

What is the hope in your community for your school?
